## HOW IT ALL BEGAN . . .

Fargus the off-center jester and his demented stick-puppet partner Sid spent their lives hand in glove, though not always of one mind. They had grown up together in a large family of jesters and were living proof that cousins shouldn't marry.

Mostly, Fargus and Sid traveled from faire to carnival, embarrassing people here, there and everywhere. Their act was getting as stale as the fruit bowl and eggs that bombarded them during every performance. Their show was not so much an act as a bombing pattern. Now on their second swing through Lyr, they were starting to get a little leery of the well-armed crowds itching for target practice. Fargus and Sid needed a boost.

Just then, from down the alley, a town crier came by:

*"Come one, come all to W.I.T.S.: the Wizards In Training Seminar! Tonight only at the Lancelot Castle and Bingo Pavilion. Taught by the one and only Tony Vu, The Worldly One, the man who had nothing and now has everything. He'll show you how to become a Tenth Level Wizard with absolutely NO MONEY DOWN. He'll teach you the wonders of Disappearing, Turning Into Things, Spellcasting 101, Fun With Fire and Pyrotechnics. Free wizard's cap with every admission!"*

Fargus and Sid looked at each other, both staring deep into space. A new career, the chance to play with fire, and they could finally ditch their goofy hats! As one, they cut a beeline for Lancelot Castle.

## MEANWHILE IN ANOTHER PART OF THE VILLAGE . . .

Nikki, the youngest member of the Flying Fleugel Family, was daydreaming on the highwire. For her, carnival life was dull, dull, dull. Besides, her best friends were Brenda the Alligator Lady and Fritz the World's Smallest Cow!

Nikki was nobody's fool. A talented acrobat with hair-trigger reflexes, she felt there had to be more to life than gripping a balance beam. More than anything else, Nikki dreamed of being a wizard.

It was this daydreaming that finally got Nikki into trouble. She forgot to feed the lions and almost cost The Great Zeigfreed an arm. "I gotta get out of here," she thought. "I'm tired of performing with geeks and freaks. I'm running away to become a wizard!"

## DOWN AT LANCELOT CASTLE & BINGO PAVILION . . .

Nikki, Fargus and Sid weaved their way to the very back of the overflow crowd awaiting The Worldly One himself. Bumping annoyingly into each other, the three decided they might as well exchange greetings.

"Hi, I'm Fargus. What's your sign?" Fargus grinned at Nikki.

Sid coughed out, "Hubba hubba."

Nikki returned the compliment: "Nice hats, fellas!"

Suddenly The Worldly One made a splashy entrance, appearing through a flume of smoke as a snake, a buffalo and a llama, and finally letting off his opening joke in a thick accent: "Excuse me, I've been going through a lot of changes lately."

From there it went downhill fast. Vu droned on and on with a disconnected monologue. Fargus dropped off with a snore, Sid made spitballs and Nikki practiced backflips, accidentally kicking several patrons in the back of the head.

Finally, Vu waved a mossy-looking volume at the crowd and hollered: "When we reconvene, I'm going to tell you about the most important and powerful book in the universe. But first, let's break for donuts and mead in the lobby." Then he cut out for the john.

"C'mon, guys, let's follow him," Nikki hissed, eyes alight with mischief. The three hustled down the hallway after Vu. As they drew closer, they noticed that their host had evidently been hitting the mead himself. As The Worldly One tripped over a carpet wrinkle, the ancient book slipped out of his wizard's backpack.

Nikki quickly leaped and grabbed the thick tome before it hit the ground. The book was titled *Ancient Wizards Spellbook* and underneath: *Must be fully trained and licensed to use.* And in very small print at the bottom: *May result in danger and death.*

Just what they hoped for! The three hung a sharp left, rushed up a staircase and stood on a high balcony with power in hand . . . and PANDEMONIUM awaiting!

# SCREEN DISPLAYS

Hearts

Ankhs  
(Lives)

Coins

## HEARTS

Hearts display your hit tolerance. Each Heart is worth 1 hit point. Hearts disappear as you take the damage the monsters dish out.

Restore your hit points by collecting Heart power-ups. Lose all your Hearts, and you will lose one Ankh (Life).

**Heart** power-ups restore 1 hit point each.

**Gold-Rimmed Hearts** add Heart positions. You can have up to 7 Hearts showing at the top of the screen.

## ANKHS

Ankhs show your number of chances. Lose one Ankh, and you must replay part or all of the level (depending on whether or not you passed a Checkpoint). Lose all the Ankhs and you'll be taken back to the Mystic Map.

Collect **Ankhs** to increase your chances.

## COINS

Collect 200 Coins to gain an extra Ankh.

**Green Coins** are worth 1. **Red Coins** add 5 to the number. **Purple Coins** are worth 25.

**Double Treasure Timer** doubles the value of any Coins you collect in the next 10 seconds.

**Coin Bonus:** Picking up all (or almost all) of the Coins in a level earns you entry into one of the Bonus Rounds.

- Collect 80% of the Coins and find out how fast you are!
- Collect 95% of the Coins and be prepared to bounce, flip and tilt!

## CHECKPOINT

Each Checkpoint is unique looking, but they all have one thing in common: once you pass them, you can't go backward in the level. Checkpoints are level markers. If you lose a Life, you'll restart the level from the last Checkpoint you passed. (If you replay the level from the Mystic Map, though, you'll start at the beginning.)

# SPECIAL MOVES

## BOUNCE

When jumping, use the **D-Pad** to aim your character's landing. Make direct hit(s) on enemies to dispose of them. Hint – Hold down **Button C** (jump) while bouncing on enemies and trampolines to “grab some air” and reach higher areas.

## THE FARGUS TUMBLE

As Fargus, press **Button B** (special) to tumble, mowing down enemies without taking damage. Use the **D-Pad** to tumble LEFT or RIGHT.

## NIKKI'S DOUBLE JUMP

As Nikki, tap **Button C** (jump) once to jump. Tap again while jumping to perform an acrobatic double-jump/somersault combo, great for grabbing way-up items and soaring past danger.

# SHAPECHANGING

Run through special gates to find yourself magically changed!

## DRAGON!

You're the “air apparent.” Press the **D-Pad UP** to fly and **D-Pad DOWN** to dive. Note – Dragon is an expert at fire-breathing.

## RHINO!

Charge through enemies and obstacles, wrecking wreckage without taking hits. (Rhino must be running to avoid damage.)

## FROG!

Jump super-high as an agile amphibian.

## TURTLE!

Press the **D-Pad DOWN** and it's “no trespassing” while you're holed up in your shell, invulnerable to all damages.

# WEAPONS & POWER-UPS

Special pick-ups arm you with firepower, great for destroying monsters before they reach you. Weapons last until you pick up another one or take a hit.

The **fireball** packs a pyrotechnic wallop. The weapon icon disappears once you pick it up.

The **phoenix fireball** regenerates itself. Its effect is the same as the fireball's, but if you lose the power, you can return and collect the weapon icon again an unlimited number of times.

The **shrink ray** temporarily reduces monsters to pipsqueaks so you can squash 'em. Better be fast – they grow back!

The **freeze ray** paralyzes enemies, turning them into easy targets. When they thaw out, watch out!

**Keys** open the way to locked or closed-off areas. Sometimes you'll see the effect immediately; other times you'll have to find it.

The **shield** protects you from damage. Your character becomes anodized and impervious to hits while the power lasts (10 seconds).

## DEVICES

Trampoline

Lyr is loaded with devious devices that can help you out – or make your quest impossible until you figure out how to use them!

Light Switch

Rolling Boulder

Cannon

# MAGICAL MOMENTS

## LEVEL NAME

### 1 Skull Fortress

Bounce on melons, navigate a waterfall, and edge across a canyon on a slim rope bridge to reach the castle. Inside, amid treasures and razor-edged dangers, is the way to the central tower.

### 2 Hollow Stairway

Scale the outside of the tower to nab the key, retrace your steps to get inside, and ascend to the roof to find your way to the dungeon below.

### 3 Dungeon Tower

Most of the fabulous treasure once hidden deep under Skull Fortress is now gone, but the traps and lurking beasties that protected it ARE STILL THERE. Be wary of traps and secret areas.

### 4 Lost Caves

Balance on spiderwebs and slide on slime as you descend deeper and deeper into the Earth. While dodging falling rocks and Stalagmen, think about this: most of the gems were mined from these very caves . . . so there must be more somewhere.

### 5 Fungus Grotto

Deep where the sun has never shone, a huge mushroom forest grows where the Fungus People live. Either run between the stems or jump from cap to cap, but be quick, for the Fungus People do NOT like intruders.

### 6 Acid Pools

Slide over moss-wrapped rocks and bounce off toadstools in your search for the way out. Beware the acid pools, for here lives the Lord of the Fungus People.

### Boss Shroom Lord

Little is known of Fungus Maximus, the Shroom Lord. It is rumored that he is big, angry, sneezes a great deal and hates fire. The only way out is past him, and none so far have survived the challenge.

### 7 Burning Desert

The passage from the underworld leads to the distant land of the burning desert, a beautiful sandscape of shifting dunes, wind-sculpted stone arches and sand hot enough to roast weinies. Plenty of treasure is tucked away here. Just watch where you step.

### 8 Branky Wastes

To reach the woods at the desert's edge, you must pass infestations of almost indestructible Branky: half alligator, half rhino, all mean. Fortunately, these creatures never attained the full size of their extinct cousins, the Brankysaurus Rex, whose fossils litter the barren tracts.

### 9 Spider Forest

These tree-studded mazes are famous for three things: big hairy spiders, more big hairy spiders, and even more big hairy spiders. Follow the path up to the village, but beware of the rolling logs.

- |              |             |
|--------------|-------------|
| <b>LEVEL</b> | <b>NAME</b> |
|--------------|-------------|
- 10**

**Canopy Village**

This once-prosperous logging camp has fallen into ruin since Honcho and his Goons took over. Run up the paddle wheels and vault over huge spider traps to reach the back door of the Goon Soldier barracks.
  - 11**

**Soldier Barracks**

The barracks were built to protect Honcho's new stolen logmill from the dispossessed owner, who might try to get it back. Slide down the flumes and battle the Goon Soldiers to reach the doors between you and Honcho's mill.
  - 12**

**Honcho's Logmill**

Honcho may be tough, but he's not bright. He has inconsiderately scattered whirling blades, dangerous machines and clattering tools everywhere. If you can avoid them, you can eventually hitch a ride on Honcho's airship.
  - Boss**

**Goon Honcho**

Honcho is very protective of his favorite toy, the airship. To catch a ride, you'll have to defeat him without getting mashed into anchovy paste.
  - 13**

**Honcho's Airship**

Honcho left piles of treasure on his ship, and even in the balloon itself. Once you reach the docking station, you'll have to navigate the aerial maze. If only you could fly!
  - 14**

**Dragoon Skyfort**

Climb higher and higher, dodging rockets and floating bombs. Bounce off clouds to ascend to nose-bleed altitude. Watch your step, because it's a long way to the bottom.
  - 15**

**Cloud Citadel**

Built by giants, this citadel was once a great treasure house. The giants have vanished, but the treasure may still be hidden there. Ride the winds, blast out of cannons, and use teleporters to reach the heights.
  - 16**

**Efreet Palace**

Lords of fire and wind, the Efreet pass their days tending the immense wind engines in their lattice-work palace. Discover how to walk on air as you enter the vortexes, each step sending you up, up, up!
  - 17**

**Frozen Cavern**

Drifting so high that the air has frozen, fly through the wind, blast through ice walls, and try not to plummet to the Earth far, far below.
  - 18**

**Storm Temple**

This awesome edifice was built by giants to honor the Storm Gods. Ride Spirit Geysers to avoid Lightning Balls. Find the beam that holds Night Demons at bay. Avoid the dreaded Ghost Wind and you just might achieve your quest of attaining the Wishing Engine . . . IF you can defeat its guardian . . . .

# SECRET AREAS & BONUS ROUNDS

- Explore to find special doors and secret chutes that drop you into secret areas packed with hidden surprises.
- Collect a high percentage of Coins in any level and you'll gain access to one of the bonus rounds when you finish the level. Play the bonus round with spunk and you'll grab a pile of power-ups.

## ENDING A LEVEL

You'll see a large gate or door when you reach the end of each level. Run through the passageway to complete the level, see how much of the treasure you've collected, and earn your password.

## SID'S ADVICE

- Watch for directional arrows that guide you through uncertain areas.
- Destroy crates to reveal treasures.
- Explore each level thoroughly for all treasures, coins, secret areas and weapon power-ups.
- Pushing on certain objects may reveal secrets below or behind them.
- Bounce off enemies to reach remote places.
- Jump off airborne enemies to reach treasure and/or areas out of your normal jumping range.
- Some enemies hold the keys you need to open gates or reveal secrets.
- If you collect a key that doesn't have an obvious effect, explore around and maybe you'll find the answer.
- If you find a level too difficult to complete, try changing characters to take advantage of that character's special talents.
- The Shield protects you from everything except bottomless pits.
- If you already have a special weapon or power, don't collect another power-up unless you want to replace the first one.
- Use boulders and logs to roll over land-based hazards.
- When a Dizzy is around, use him to your advantage. Jump as he spins into you to launch high into the air. Getting hit by a Dizzy will not hurt you, unlike other enemies.
- Brankies can't be defeated with brute force. Just run or use power-ups!
- All bosses are immune to normal weapons. Find something else to use against them.
